# Richard Hamilton

.Net C# Developer - Contract (+ Umbraco CMS) \*\* Available NOW  
for contract, can work 2-3 days onsite London/ South East  
London, England, United Kingdom

## Summary

Asp.net C# Developer

## Experience

### Strike 3 Ltd

Director and .NET Developer  
September 2024 - Present (10 months)  
London Area, United Kingdom

Working on various upgrades from Umbraco 7 and 8 - v13  
New tickets website on Umbraco 13

### Avanade

Senior Umbraco Full-stack Developer  
January 2023 - September 2024 (1 year 9 months)  
London, England, United Kingdom

I was brought in to clear a backlog features and updates for the UKTradeInfo website. Mainly to pass the DAC accessibility assessment and to move the site from Beta to Production (we passed). Working with a great small team the main jobs were to add Umbraco components to the site, a new mega-mega and site-wide search using GovUK frontend components. Also creating an embedded newsletter sign-up and unsubscribe form to make that more accessible. Node js, javascript, .Net, MailjetAPI.

### Team ITG

Senior Software Developer  
September 2023 - December 2023 (4 months)  
Birmingham, England, United Kingdom

### Felinesoft

. Net / Umbraco Developer  
July 2023 - September 2023 (3 months)  
City Of Bristol, England, United Kingdom

Umbraco 8 to 10 Upgrade (.Net framework 4.x to .net 6.0)

Working with a well respected client on upgrading 2 websites to umbraco 10 / dotnet 6.0.

The main focus was upgrading the integration with the API datasources, Azure Tables and Azure Search.

Also upgrading Umbraco forms.

and all the related Models, Views and Controllers.

## DEPT®

Umbraco Developer

March 2022 - December 2022 (10 months)

Dublin, County Dublin, Ireland

Working on the new company-wide core system, based on .Net (Umbraco), MongoDB, Shopify and React that can be used as a starter kit for brands throughout multinational drinks company (Diageo).

## Thames Water

Senior Dotnet Developer

January 2022 - March 2022 (3 months)

Reading, England, United Kingdom

API middleware app delivered - building Payment Gateway interfaces in .NET 6 (.Net core). These were to facilitate the interface between legacy systems and WorldPay's new Corporate Gateway.

Deployed to an Azure Function App.

## Lifetime Training

Website Developer

August 2021 - January 2022 (6 months)

Bristol, England, United Kingdom

Umbraco 8 development in partnership with external agency. I mainly worked on building and delivering the new function app services such as vacancy importer and job alert emailer.

I also worked on building the resources in multiple Azure environments and configuring the build and deployment pipelines in Azure DevOps and Octopus deploy.

## MBA

Head Of Development

August 2020 - August 2021 (1 year 1 month)

London, England, United Kingdom

Head of Development, planning and resourcing projects for the main larger clients and also managing the maintenance tasks for many smaller clients websites.

Mixing the skills from our core team and also utilising contractors and freelancers depending on the work in-hand.

This was also a hands-on development role in between managing the main projects.

### Strike 3 Ltd

Technical Director / .Net Contractor

November 2014 - August 2021 (6 years 10 months)

Bridgend, Wales, United Kingdom

Bridgend, Wales / Clapham, London

April 2020 - Date

Various Umbraco 8 builds direct with smaller clients including:

- A new design for my own website, rebuilt in Umbraco 8 - [www.strike3digital.com](http://www.strike3digital.com)
- Fully bespoke Umbraco 8 dessert Shop website with blog, menu, shopping cart, option to delivery / collect, pay online / pay on collection. Integration with FirstData payment gateway (no eCommerce plugin used) - [www.cookieskremecardiff.co.uk](http://www.cookieskremecardiff.co.uk)
- Fully bespoke Flourist ecommerce site, shopping cart, payments by Stripe, built on Umbraco 8
- Trade website for local plumber with clear CTAs - [www.alwplumbing.co.uk](http://www.alwplumbing.co.uk)
- Website for family run food oils collection and delivery business based in Winchester - [www.jpoils.com](http://www.jpoils.com)
- Trade website for electrician. Moved from WordPress to Umbraco 8 with modernisation (WIP)
- Website for Cuddle Therapy consultant - Umbraco 8
- Website for Ice-Cream business (WIP)
- Taken on maintenance of Events website - built many years ago in Umbraco 7.2, and in need of modernisation, upgrade, code maintenance and SEO work.

This work has enabled me to build my own Umbraco 8 eCommerce solution and a good starter kit of my own for more basic sites. Using this, with help from my trusty Trello board, I can now spin up an Umbraco 8 website very efficiently.

2015 - 2020

-- See Contracts in Experience --

July 2015 - Sep 2015

Contract building an Umbraco Website for a high profile client in London. MVC, Umbraco, ASP.NET, C#, WorldPay integration.

Dec 2014 - June 2015

Working on some short term contracts and now a mid term contract building a bespoke CMS for my client in ASP.NET, MVC, C#, JQuery.

Vista Entertainment Solutions

Senior Umbraco Developer

June 2019 - April 2020 (11 months)

Human Fertilisation and Embryology Authority

Senior ASP.NET web developer

October 2017 - July 2018 (10 months)

London, United Kingdom

Maintaining and upgrading the recently built website and portal. Built in ASP.NET with an Umbraco CMS for public facing content.

We are ROAST

ASP.NET / Umbraco Web Developer (Contract)

July 2017 - October 2017 (4 months)

London, United Kingdom

Complete back-end rebuild of high profile travel insurance company website.  
C# ASP.NET Umbraco CMS

Maximise IT Solutions Ltd

ASP.NET Software developer

April 2017 - July 2017 (4 months)

Bristol, United Kingdom

John Brown Media

## C# Umbraco Developer Contract

March 2017 - April 2017 (2 months)

London, United Kingdom

Working on a couple of small projects - 1 was a location search for events and activities around the capital for one of the UK's most well known department stores.

Working on a voting system for a charity mini-site for a large UK banking group.

## EMO Unlimited

Senior Umbraco / ASP.NET Developer (Contract)

October 2016 - April 2017 (7 months)

Bristol, United Kingdom

Working with some high-profile client accounts such as BMW MINI and Toyota, integrating legacy systems and new features.

## Online Power Systems Ltd

Senior Developer

February 2016 - September 2016 (8 months)

Eastleigh, Hampshire

Building online store technology and database systems

## TheYachtMarket.com

Senior Web Developer

March 2013 - December 2014 (1 year 10 months)

Heading up the IT and development department. Introducing new methodologies, procedures and systems.

Hands on development of new products and frameworks for a suite of multilingual and responsive network websites.

Project Managing the complete redesign of the international website for TheYachtMarket with over 60,000 boats for sale in over 100 countries world-wide.

## NXT Digital Solutions

ASP.NET Developer (C# / Umbraco CMS)

February 2012 - February 2013 (1 year 1 month)

Working on and implementing many enterprise level Umbraco Projects.

Using XSLT, C# user controls in the backend and JQuery, HTML and CSS for the front-end.

## Index eBusiness

Web Developer (VB.Net / Mojo Portal)

April 2011 - January 2012 (10 months)

Fleet, Hampshire

## UltraIT S.A.

Lead Web Developer

June 2005 - April 2011 (5 years 11 months)

Javea, Alicante

At UltraIT I had the privileged opportunity to work with and lead a great team of enthusiastic people.

My role was at the core of the business itself, coordinating and liaising between the Directors, Marketing, Accounts, and my SEO, Design and Development team. This meant I had to balance and plan the work so that every member of my team worked effectively, within budget and projects were completed on time, signed off by customers, ready for billing.

## Virgin Media (ntl Group)

Test Equipment Co-ordinator

1998 - 2005 (7 years)

Waterlooville, Hampshire, UK

---

## Education

Southampton Solent University

HND Business and Finance, Business and Finance · (1996 - 1998)
