Gracy Rishar

Senior Full stack Engineer at LPL Financial
Greater Richmond Region

Summary

I am a Senior Full stack developer with 14 years of Software development experience and 5 years as a Technical Lead. Expert in creating complex Enterprise Web application using Angular, Vue js, Angular js, Node js, .Net Core, C#, ASP.NET, AWS, SQL, NoSql.

Migrated Mulesoft supported APIs to .Net core APIs on AWS cloud. Completed database migration from sql (on prem) to Aurora supported PostgreSQL (AWS cloud).

Accomplished on-prem to cloud migration using AWS, Modernized a monolithic application into a cloud native app built on micro-service | micro-frontend frameworks (.Net => Vue js, Node js), Legacy application maintenance and support.

My day-to-day work involves development, testing (Writing Automated Unit and Functional test, Performance test scripts), deployment using CICD pipeline on an AWS based cloud infrastructure, monitoring and creating Splunk dashboard and participating in Agile ceremonies.

I'm passionate about advocating for women and peers and mentoring young professionals.

12 years of Banking and Finance industry experience in Online banking, Payment gateway, PCIDSS, AML, Fraud, Regulatory compliance and Risk Governance from a fast paced Agile environment.

Highly skilled in writing re-useable code, interacting to REST APIs and SOAP services, exception handling and logging. Expert in building Test automation suites using Java, Ruby, Cucumber and Selenium. Having deep understanding on various SQL and NoSQL databases and highly skilled in writing queries using SQL, Oracle and PostgreSQL.
